## CLEANING TIPS TO COMBAT SARS-COV-2

Pine-Sol is one of the newest products added to the EPA's list of disinfectants that can kill SARS-CoV-2.

- Apply full-strength Pine-Sol to a surface with a clean sponge or cloth.
- Wet the surface
- Let everything stand for 10 minutes.
- Rinse it off.

Ten minutes seems like a long time – and it is. But, when you read the labels of other popular disinfectants on the EPA's List N, you'll find that many others also recommend letting the product sit in order for it to kill SARS-CoV-2.
